# About Us

Chester Engineering Ltd. is a **leading manufacturer of high-performance diesel engine fire pumps**, engineered for **precision, reliability, and compliance** with global fire safety regulations. We are committed to **innovation, safety, and efficiency**, providing solutions for **industrial, commercial, and municipal fire protection systems** worldwide.

## Why Choose Chester Engineering?

**Certified & Compliant**– Meets **UL, FM, NFPA, and ISO** standards.

**High Performance**– Optimized for **efficiency and durability** in critical fire safety operations.

**Custom Solutions**– Wide range of models for **various fire protection needs**.

**Global Support & Service**– Reliable assistance for **installation and maintenance**.

## Diesel Engine Models

Each model is designed for **high efficiency, durability, and optimal fire safety performance.**

### ENGINE SPECIFICATION:

#### TYPE:

A) 4 CYCLE-IN LINE WATER COOLED; 4 CYLINDER/6 CYLINDER

B) 4 CYCLE-V TYPE- WATER COOLED; 8 CYLINDER/10 CYLINDER/12 CYLINDER

**COMBUSTION SYSTEM:** DIRECT INJECTION

**ROTATION VIEWED FROM FLYWHEEL:**

COUNTER CLOCKWISE

## CHESTER ENGINE RANGES

- UL:51 HP to 1207 HP
- FM:39HP-1187HP

Chester RPM covers from 1470 rpm to 2950 rpm

### MODEL NO:

Starts from CH4-90-E  
to CH12-159-EB

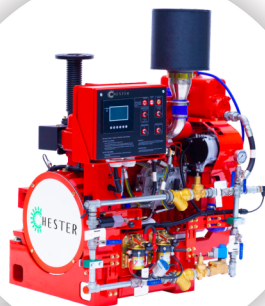

**LISTED**

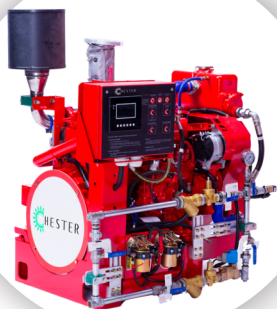

**APPROVED**

CH4-90-EB

CH4-90-EC

CH4-102-EB

CH4-102-EC

CH4-105-E

CH4-108-E

**RELIABLE DIESEL ENGINES FOR FIRE FIGHTING  
FOR AN UNCOMPROMISED SAFETY**

**Address:**

**UNITEDKINGDOM**

7 Bell Yard, London, England, WC2A 2JR
